Heritage Permits

A Municipal Heritage Site is a legally recognized and protected site that has significance to the community's history and heritage. Significance can include an association with an important person, event or theme in the community's history, notable architecture or materials, recognition as a community landmark, or a connection to everyday experiences or spiritual lives of residents. A heritage permit is often required for work done on a Municipal Heritage Site.

Documentation and Fee Requirements

- Application Fee: See fee schedule
- Status of Title: Available at Brandon Land Titles Office, 705 Princess Ave.
- Letter of Intent: As per attached checklist
- Site Plan: As per attached checklist
- Elevation Plans: As per attached checklist
- Other plans and documentation may be required, depending on the nature of the request

Timelines

The process generally can take two (2) months at best; complicated applications may take a longer period of time.

Decision Making Authority

Municipal heritage permit applications are approved by the Brandon Municipal Heritage Advisory Committee, a committee of City Council.

Pre-Application Review

Before formal submission of an application, the Planning, Property & Buildings Department can do a preliminary review of the application package and, if necessary, advise the applicant on which elements of the package should be revisited. The Planning, Property & Buildings Department cannot guarantee support or approval of an application, as it must objectively analyze all applications. The pre-application review may take two to three (2-3) weeks.

Committee's Review

The applicant must attend the Brandon Municipal Heritage Advisory Committee meeting in which the heritage permit application is scheduled to be considered, and he/she is responsible to present details of his/her application and answer any questions the Committee may have.

Conditions and Limits of Approval

Some approvals may have conditions attached to ensure the heritage integrity of the building, structure or site is maintained.

Other Approvals Required

Some work proposed under a heritage permit also requires a development or building permit if the heritage permit is approved. Please consult with the Planning, Property & Buildings Department on requirements and the process for a development or building permit.

Some work proposed under a heritage permit may not comply with other laws or by-laws, such as the Zoning By-law. Those issues must be addressed before the heritage permit application can be considered.
